09619098620

Summary

A Bachelor of Science in Computer Science graduate with over 2 years of experience in mobile and web development, and 3+ years of freelance IT maintenance work. Skilled in building modern applications, troubleshooting technical issues, and delivering reliable IT solutions. Currently expanding expertise in cybersecurity and ethical hacking

Experience

June 2021 - Present

Front-End Developer | The B Academy PH

- Developed and contributed to THRIBO, a screening and assessment application based on global healthcare standards designed to digitize patient assessment and health data collection

IT Maintenance | Freelance

- Configured network switches and Wi-Fi devices, and managed DHCP/DNS settings to ensure stable and flexible internet connectivity.

IT Maintenance | Freelance

- Provided community-based IT support, including diagnostics and troubleshooting for mobile phones, computers, Wi-Fi devices, and printers.

Full-Stack Developer / DevOps| XICAR Ride-Hailing App

- Engineered from scratch a local ride haling application in Iloilo, Philippines. Supervisioned staging brances/beta environment, handled CI/CD automation and handling self hosted internal services and server management.
